Notes on using this Manual

•An index section has been added at the front of this manual (pp. 1-44) to assist in determining the appropriate Hydro-Gear product series. Locate the model number in the index that matches the model number found at left center on the bar code label (see below) on your Hydro-Gear product. It is necessary to use the model number when ordering whole units. Some earlier Hydro-Gear units may not have a Model Cross Reference Number listed on the bar code label.
